

Nike Mercurial Vapor 16 Elite 42

Obsessed with speed? So are the game's biggest stars. That's why we made this Elite boot with an improved 3/4-length Air Zoom unit. It gives you and the sport's fastest players the propulsive feel needed to break through the back line. The result is the most responsive Mercurial we've ever made, because you demand greatness from yourself and your footwear.

Product code: 15

Brand: Nike

24 000.00 RSD

Netto price: 20 000.00 RSD

Description

Fast traction

The wave-like traction pattern works with the Air Zoom unit to unlock your blazing speed. It takes up more surface area of the Air Zoom unit compared with the Vapor 15 while providing the right amount of grip. It is combined with chevron and blade studs to help you stop when making cuts.

Exceptional touch

Nike Gripknit, a sticky material that provides exceptional touch to the ball, gives you the control you need when dribbling at high speeds. It provides equal grip in wet or dry conditions.

Snug fit

The Flyknit upper, engineered for the game's fastest players, provides a sock-like fit. It is combined with Gripknit to form the thinnest Mercurial upper to date, bringing you closer to the ball and shortening break-in time.

Product details

- For use on dry, natural-grass pitches
- Cushioned sockliner
- Colour Shown: Racer Blue/White
- Style: FQ1457-446

Declaration

- **Brutto weight:** 1 kg
